ADVANCED TECHNOLOGICAL DESIGN

COPPER WIRE CONSTRUCTION™ TECHNOLOGY REVOLUTION

- Innovative, unique Copper Wire Construction for exceptional touch, maximum dampening and optimal control.
- After the ball impact vibrations run through the racket frame with the aid of the copper wire into the handle and then directly into the player's hands. Negative vibrations are absorbed by a silicone pad at the bottom end of the grip.
- Additional support is guaranteed by the world's first copper grip, featuring a copper tape layer.
- The result is a pure, natural feeling.

REVOLUTION NT STRINGS

REVOLUTION NT STRINGS

World-Exclusive

- The unique Revolution NT Coating guarantees that the strings stay in their original position for up to 12 hours.
- Hence it is always ensured that the equal energy and power is transmitted during the shot.
- Hybrid string consisting of Revolution NT black (seven-edged Premium polyester) for maximum spin and Revolution NT yellow for maximum touch and durability.
- Optimal results in combination with the new S-M-F-Stringing-System by a certified NT stringer. NT stringers/dealers mentioned on the website below.
- Available in different gauges.

S-M-F-STRINGING-SYSTEM

REVOLUTION NT BLACK

REVOLUTION NT YELLOW
